## PARENT COMPANY **FAR EAST HORIZON**

Far East Horizon Limited (the "Company" or "Far East Horizon") and its subsidiaries (the "Group") is one of China's leading innovative financial companies focusing on the Chinese fundamental industries and leveraging the business model of integrating finance and industry to serve enterprises of greatest vitality in China. Based on its operational philosophy of "finance + industry", Far East Horizon endeavours to realize its vision of "integrating global resources and promoting industry development" by making innovations in products and services to provide clients with tailor-made integrated operations services. Over the past more than 10 years, the Group has been leading the development of the industry, and has been listed among the Fortune China 500 and Forbes Global 2000. With its assets of more than RMB300 billion, the company has served more than 20,000 clients, and has accumulatively invested more than RMB 1 trillion in the real economy.

## ABOUT US **HORIZON CONSTRUCTION DEVELOPMENT LIMITED**

As a subsidiary of Far East Horizon (03360.HK), Horizon Construction Development Limited ("Horizon Construction Development") is the largest equipment rental company in China committed to providing construction and industrial clients with multi-functional and comprehensive services. Established in 2011, the company has built up an integrated service network covering 415 locations in Chinese Mainland and 4 locations overseas, thereby serving the widest variety of applications and clients in the world, with total assets of over RMB 30 billion. In 2023, CDHORIZON was officially listed on the Main Board of HKEX, stock code 09930. HK.

Horizon Construction Development provides full-cycled service including equipment rental, shoring solutions, scaffolding solutions etc. to end market of industrial, commercial, and infrastructure. As a trustworthy one-stop partner, the company works together with clients to find solutions with a shared commitment to safety and efficiency. Two of its subordinate platforms have been recognized as "National High-tech Enterprises".

Headquartered in Tianjin, Horizon Construction Development has four operating centers in Shanghai (Jinshan and Jiading), Tianjin (Wuqing) and Guangzhou (Nansha) respectively. In recent years, the company is expanding its overseas business to increase international exposure.

In 2023, Horizon Construction Development has ranked 14th in the IRN 100, and its three major products have all ranked first in China in terms of volume and market share. To be more specific, the volume of shoring system, scaffolding system and aerial work platform has exceeded 1.6 million tons, 660,000 tons and 160,000 units respectively. Moreover, according to the Access 50 List 2023, the company's aerial work platform has leaped to No.3 worldwide.

01

## AERIAL WORK PLATFORM

With efficiency-driven operation and platform scale as the core competence, the AERIAL WORK PLATFORM has constructed a nationwide service network and a leading digital operation system characterized by integration of online and offline channels, which has eventually become a key gateway connecting equipment vendors with end users.

### EXTENSIVE NETWORK TO GUARANTEE HIGH EFFICIENCY

- i. 37 km delivery, logistics transportation distance is decreasing
- ii. 1.5 hours maintenance service response time
- iii. 15-minute rapid response to provide on-site guidance, on-site service

### FULL PRODUCT LINES

- i. About 160,000 units, representing the largest volume in China
- ii. 8 product lines, including scissor lifts, telescopic boom lifts, articulating boom lifts and etc.

## 02

## NEO-SHORING SYSTEM

With technology-driven and customized services as its core competence, NEO-SHORING SYSTEM is characterized by multiple self-developed IPs and it offers one-stop solutions and supply chain services integrating design and construction management.

### PROPRIETARY IPS

Specific proprietary technologies, including over 80 patented technologies and 20 invention patents.

### FULL-FEATURED AND DIVERSE MATERIALS OFFERINGS

- Over 1.6 million tons of materials, representing the largest volume in China
- 8 categories consisting of 27 sub-categories
- Wide applications in construction scenarios

### HIGH-QUALITY MATERIAL OFFERINGS

- High-standard specifications, high-strength materials
- High prefabrication degree and high installation accuracy
- Regular maintenance and refurbishment, long service life

## 03

## NEO-SCAFFOLDING SYSTEM

With stable quality assurance and full-featured offerings as the core competence, NEO-SCAFFOLDING SYSTEM can improve safety, efficiency and quality for clients through integrated project design and site management with systematic support capabilities.

### PROPRIETARY IPS

- Proprietary R&D and product design
- Nearly 50 patents
